Prospectus Of The United States Of America

August 23, 1984

Mr. William J. Casey
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Casey:

Mike Nusca and I would like to express our appreciation to you for the outstanding job you have done as the Director of the Central Intelligence Agency.

We are particularly concerned with the tremendous budget deficits our country has experienced resulting in an accumulation of a national debt of approximately 1.5 trillion dollars. If all Americans, more particularly, members of the Cabinet and Congress could comprehend the damage these deficits have on the American economy and our free enterprise system, we are certain action would be taken.

We are enclosing a copy of "Prospectus United States of America", a document that we have written to alert the citizens of this great nation of their country's current financial crisis and the paramount importance of balancing the federal budget.

We respectfully request your comments.

Sincerely,

Kenneth E. Burch
